(High Annual Use, High Load Factor)

AVAILABILITY:

Service is available under this rate to commercial, industrial and institutional customers purchasing default service from the Company who have annual usage is greater than 100,000 therms per year and whose consumption of gas during the months of May through October is 30 percent or more of total consumption during the same calendar year as determined by the Company.

RATE PER MONTH:

Delivery Service:

Customer Charge: \$770.00 per month

Distribution Charge:
(Per therm)

Winter - \$2.6249 per Maximum Daily Contract Demand

Summer - \$1.8749 per Maximum Daily Contract Demand

Determination Of Maximum Daily Contract Quantity (MDCQ)

After consultation between the Company and the Customer regarding the potential maximum quantity of gas to be transported to the Delivery Point in the applicable period, the customer shall elect, subject to the Company's agreement, the initial annual MDCQ.

The Company will be guided by the following methodology to establish the customer's initial MDCQ:

The monthly Billing Demand shall be recomputed annually and shall be determined based upon gas consumption data for the most recent twelve month period ("Reference Year") for which data is available, or the best estimates available to the Company should actual information be partially or wholly unavailable or unrepresentative of the Customer's future consumption.

LOW INCOME RESIDENTIAL NON-HEATING RATE
RATE CLASSIFICATION T-2

AVAILABILITY:

Service is available under this rate at single locations to all residential customers not purchasing default service from the Company for domestic non-heating purposes in private dwellings and individual apartments. A customer will be eligible for this rate upon verification of the customer's receipt of any means-tested public benefit program or verification of eligibility for the low income home energy assistance program or its successor program, for which eligibility does not exceed 60 percent of the Massachusetts median income level based on a household's gross income or other criteria approved by the Department.

It is the responsibility of the customer to annually certify by forms provided by the utility, the continued compliance with the foregoing qualifications.

RATE PER MONTH:

Delivery Service:

Set at the existing rates established in the Company's Residential Non-Heating T-1 Rate Classification.

Gas Commodity:

Supplier Service: Applicable to customers entering into an agreement with a supplier as provided for under the Company's Distribution Service Terms and Conditions. Charges based on customer contract with supplier.

BILLING PERIOD:

The Winter period will be from November 1 through April 30. The Summer period will be from May 1 through October 31. The Summer or Winter rate will be in effect with the first meter reading for the month of transition (May and November).

MINIMUM BILL:

Sum of the Customer Charge and the Energy Conservation Surcharge, less any application of the Low-Income Discount Adjustment provided under this rate schedule.

RATE ADJUSTMENTS:

The provisions of the Company's Local Distribution Adjustment Clause, Revenue Decoupling Adjustment Clause, Energy Conservation Service Charge, and Cost of Gas

Determination Of Maximum Daily Contract Quantity (MDCQ)

After consultation between the Company and the Customer regarding the potential maximum quantity of gas to be transported to the Delivery Point in the applicable period, the customer shall elect, subject to the Company's agreement, the initial annual MDCQ.

The Company will be guided by the following methodology to establish the customer's initial MDCQ:

The monthly Billing Demand shall be recomputed annually and shall be determined based upon gas consumption data for the most recent twelve month period ("Reference Year") for which data is available, or the best estimates available to the Company should actual information be partially or wholly unavailable or unrepresentative of the Customer's future consumption.

The initial MDCQ elected above may be increased by the Company if telemetering data demonstrates that the customer's

FARM DISCOUNT RIDER

APPLICABILITY:

The Farm Discount Rider (“FDR”) applies to Customers taking service under any of the Company’s retail distribution service rates who are engaged in the business of agriculture or farming as defined in G.L. c. 128, § 1A. Customers will be required to provide appropriate documentation of their eligibility for this Rider prior to commencing service hereunder.

DETERMINATION OF MONTHLY CREDIT:

The Company will apply a credit in the amount of ten percent (10%) of the Retail Delivery Service charges, including Local Distribution Adjustment charges, plus Default Service charges if applicable to the total service charge rendered to the Customer each month.

TERMS AND CONDITIONS:

The provisions of the Company’s Terms and Conditions in effect from time to time, where not inconsistent with any specific provisions hereof, are a part of this Rider.

PEAKING SERVICE TARIFF

AVAILABILITY

Peaking Service is available to all Suppliers or Customers acting as their own Suppliers that have been assigned Peaking Capacity on behalf of Customers in an Aggregation Pool, or on behalf of daily-metered Customers not included in an Aggregation Pool, upon execution of a Supplier Service Agreement with the Company.

APPLICABILITY

This tariff applies to all Suppliers, or Customers acting as their own Supplier, receiving Peaking Service from the Company pursuant to the Company's Terms and Conditions.

TERMS AND CONDITIONS

Service under this rate is subject to the Company's Terms and Conditions, in effect from time to time, where not inconsistent with any specific provision herein.

CHARACTER OF SERVICE

Gas provided on a firm basis and not subject to interruption or curtailment except as permitted under the Company's Terms and Conditions and the Supplier Service Agreement. The Supplier shall nominate Peaking Service quantities on a daily basis subject to the operational restrictions and nominations requirements set for the in Company's Terms and Conditions. The Company shall be obligated to provide a quantity not to exceed the Maximum Daily Peaking Quantity ("MDPQ"), as specified in the Supplier Service Agreement. The level of supply provided by the Company is subject to operational restrictions during the service availability period as set forth in the Company's Terms and Conditions.

PEAKING SERVICE RATES

Service hereunder is subject to a two-part monthly rate comprising a Peaking Service Demand Charge and a Peaking Service Commodity Charge. Such charges shall reflect the costs described below and shall be computed and submitted within the Company's Cost of Gas Adjustment Clause ("CGAC") filings.
